

Open Lecture

Open meeting - invite family and friends.

Artificial Intelligence

John J. McLaughlin

Thursday May 4th

Dinner at 6:30

Lecture at 7:30

At Eureka North Shore Lodge No 269.
101 SE 1st Ave, Dania Beach, FL 33004

No fee to attend.

Eureka Lecture Series is presented by Eureka North Shore Lodge no.269 and invites Freemasons, family and friends to be together and enjoy an evening to receive and promote knowledge. In this talk, we'll explore some of the underlying technology, see what's real now and peer into the near future to see how our lives will be impacted by Software That Thinks.

Eureka North Shore Lodge introduce you **John J. McLaughlin**, a 30 year IT technical professional with strong technical, communications and marketing skills. For the last five years at Nexenta, John has been helping customers understand and migrate to Enterprise Class Software Defined Storage.

For 15 years while at Sun Microsystems, John helped lead the charge to replace proprietary minicomputers with Open Systems. With a focus on providing professional services, major account management, and training to customers and partners, John now replaces proprietary storage systems with open-sourced, ZFS based storage solutions.

John has been Editor-In-Chief for System News, publisher of "System News for Sun Users", "System News for IT
